

INTUITIVE SURVIVAL SKILLS IN A BAD ECONOMY- Use Your Intuition to Open the Floodgates to Money Advice For Troubled Times

There's only way one to achieve success and that's to believe you are going to achieve and create it. Or attract it. One way or another, you have to open the floodgates to prosperity, to money, to large streams of gold flowing into your coffers and lining your pockets.

This isn't the time to be ambivalent. You are either in or out, no more sitting on the fence, clinging for dear life, afraid to let go. You either believe the money will pour in, and it will and does, or you are pretending to believe, and the universe knows the difference. Trust me. That's something I too struggle with.

When all systems are go, you don't need to ask because the universe is giving you everything you want. I call that riding the Miracle Wave, miracle because once you hit the ON switch; everything you want comes pouring in. A tidal wave comes forth that sweeps you in its power, and you attract the right people, the job offers are there, synchronistic meetings occur. One of my clients met her future employer standing on line at Starbucks, talking about how she had just been let go, and before you know it, the other woman was offering her a job. Human minds can't plan that, but trust me; there are higher forces at work.

WHAT IF YOU FOLLOWED YOUR INTUITION?

Her Intuitive Mind directed her to Starbucks at just the right moment for them to meet.

What if you could actually decipher what your Intuition is telling you, so that you know when to pay attention and listen? Wouldn't it be great to differentiate the voice of fear in your mind from the gut feeling in your belly? How do you intuit the right thing to do, the turn in the road to take?

Awakening your Intuitive Mind, goes deep, and is the missing ingredient to manifesting your dreams. Many people think that all they need to do is repeat over and over, I am successful, I am prosperous, etc, and don't understand why they haven't worked.

Affirmations are great, but they aren't effective if you are in fear, or anxious, as you underlay the affirmation with your negative belief system. How it goes is simple. You are behind on your rent. What do you think about all the time? I need to pay the rent, how am I going to pay the rent. Now you might also be affirming, I pay the rent I pay the rent, money comes to me, but because you are radiating the inner fear of not paying the rent, that's the one the universe responds to.

Your guides think oh you don't want to pay your rent. You like being in that state of not paying and worry. "You want anxiety, you got it! " That's what they give you/

I've outlined a few solutions here, and you can find more in my latest book, The Miracle Makers Club-Live The Prosperous and Soul-filled Life That You Deserve Today.

TURN ON THE MASTERY SWITCH AND BECOME A MAGNET FOR PROSPERITY

Learn how to use the Mastery Switch, AKA the Miracle Master Switch. This switch was used by one of my AIDS patients years ago while I was practicing Chiropractic in Berkeley CA. At the end of his treatment, I would ask him to visualize a horizontal line, on the left was zero, and then following the hands of a clock, upright would be five, and on the left was a ten.

First he was instructed to tune in to exactly where the switch was at the moment of the healing. Normally he was somewhere from 4-7 in his belief system. Then, he affirmed the level of health he wished to achieve, and holding that thought would turn the switch to ten. Then we would get to work on visualizing perfect results for all of his blood work, and hold the meter to a ten. This worked so well that his doctors were amazed at the steady perfect levels they found.

UNBLOCK THE FLOW OF MONEY

You see you are not the only person experiencing obstructions in the money flow. The clients who normally pay you are experiencing restrictions, the people who hire them, the larger companies who employ, the banks and the government, going all the way back to the source. There are floodgates holding back the money everywhere. Your job? Begin to visualize the flow of money easing, the restrictions removed. Imagine a river of gold pouring forth from the inner recesses of the earth, breaking any logjams, and going right into your bank account. Click, more money, click, and more money. Imagine all the people who owe you money, your clients, your family, your boss, receiving large sums of golden cash, so much their coffers spill over, enough for all. In fact, let's see everyone in this economy, receiving unlimited abundance.

This is such a powerful visualization because so many people are in fear and in restriction that it is impacting everyone. To counter this effect, it's very important to stay in the money flow, to affirm that money comes, and to set your Mastery Switch to a ten. Learn how to become a Magnet for wealth, a magnet for money, and a magnet for success. It's easy once you get into the flow.

Dr Joan Hangarter, DC, MS, is an Intuitive Consultant, working with both business and personal challenges to thrive and prosper from the current economic times. She is available for consultations and programs to help your business grow and enhance

your intuitive skills. Programs are tailored specifically for your needs.
